

Initial Project Planning Template

Date	1 October 2026
Team ID	SWTID-2026-2533
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	5 Marks

Product Backlog, Sprint Schedule and Estimation

The work for EduGenie was split into 12 user stories across 3 sprints. Each story is estimated in story points (1 to 3) and assigned to the team members who build it. Sprint 1 builds the base and the first Gemini features, Sprint 2 adds the quiz, learning path and local explanation features, and Sprint 3 covers polish, reliability, deployment and testing.

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members	Sprint Start Date	Sprint End Date (Planned)
Sprint-1	Project Setup	USN-1	As a developer, I can set up a FastAPI project that reads the Gemini API key from an environment file, so the team has a working base to build on.	2	High	Bhavana R	14 Sep 2026	18 Sep 2026
Sprint-1	Intelligent Q&A	USN-2	As a student, I can type a question (for example, "Which is the largest ocean?") and get a short, accurate answer.	3	High	Bhavana R	14 Sep 2026	18 Sep 2026
Sprint-1	Responsive Interface	USN-3	As a learner, I can choose a task from a dropdown, type my text and press one button, on any screen size.	3	High	Dhashni S	14 Sep 2026	18 Sep 2026
Sprint-1	Text Summarization	USN-4	As a learner, I can paste a long passage and receive a short summary in simple language.	2	Medium	Boomikadevi A	14 Sep 2026	18 Sep 2026
Sprint-2	Quiz Generation	USN-5	As a student, I can enter a topic (for example, Pythagoras theorem) and receive 3 multiple-choice questions with 4 options each.	3	High	Abinaya G	21 Sep 2026	25 Sep 2026

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members	Sprint Start Date	Sprint End Date (Planned)
Sprint-2	Quiz Generation	USN-6	As a student, I can check each answer and instantly see Correct or Incorrect, along with the right answer.	2	High	Haripriya E	21 Sep 2026	25 Sep 2026
Sprint-2	Learning Path	USN-7	As a self-learner, I can enter a topic (for example, SQL) and get a beginner-to-advanced plan with estimated time and resources.	3	High	Boomikadevi , Bhavana	21 Sep 2026	25 Sep 2026
Sprint-2	Concept Explanation	USN-8	As a beginner, I can enter a concept and get a simple explanation from the local AI model.	3	High	Dhashni S	21 Sep 2026	25 Sep 2026
Sprint-3	Responsive Interface	USN-9	As a learner, I can read answers, summaries and learning paths with proper headings, bold text and bullet lists.	2	Medium	Bhavana R	28 Sep 2026	1 Oct 2026
Sprint-3	Reliability	USN-10	As a user, I see a clear message instead of a crash when my input is empty or the AI service fails.	2	High	Dhashni S, Abinaya G	28 Sep 2026	1 Oct 2026
Sprint-3	Deployment	USN-11	As a learner, I can open EduGenie online through a public link while the API key stays secure.	3	High	Haripriya E	28 Sep 2026	1 Oct 2026
Sprint-3	Testing & Documentation	USN-12	As a team, we test every feature end to end, fix bugs and prepare the project documents.	2	Medium	Boomikadevi M, Abinaya G	28 Sep 2026	1 Oct 2026

Sprint Summary and Velocity

Sprint	Duration	User Stories	Total Story Points	Start Date	End Date (Planned)
Sprint-1	5 days	4	10	14 Sep 2026	18 Sep 2026
Sprint-2	5 days	4	11	21 Sep 2026	25 Sep 2026
Sprint-3	4 days	4	9	28 Sep 2026	1 Oct 2026
Total	14 days	12	30	14 Sep 2026	1 Oct 2026

Average velocity: 30 story points over 3 sprints = **10.0 story points per sprint** (about 2 points per working day). Priorities: High = needed for the core learning experience; Medium = improves clarity and quality.
